

An Introduction to Online Learning on the Teaching Appointments Scheme for Controlled Schools

Welcome to the Education Authority's online learning programme for the Teaching Appointments Scheme for controlled schools. The material has been developed to provide information, in a range of formats, on the key aspects of the scheme; in particular the step by step procedures to follow when conducting the selection process.

The programme is relevant for all those involved in the teaching appointments process in controlled schools; including governors, principals, Assessors, Advisers and officers of the Authority with responsibility for teaching appointments. Teachers may also find the material helpful if they are considering applying for a new position.

The Authority also provides training opportunities for different groups as appropriate, and it is recommended that, wherever possible, you should attend a suitable training event.

The Scheme document is available to download and print for your convenience. The Teaching Appointments Scheme makes several references to the Scheme for the Management of Controlled Schools, which is also available to download. You should ensure that you are familiar with the relevant Articles relating to teaching appointments; in particular, details relating to committee membership, and the withdrawal of the principal and the teacher governors.

If you have any queries relating to teaching appointments, having accessed the online learning programme, you may wish to contact Human Resources.
