PROPOSER

Provide detail of consultation with the BOGs, teachers and parents of the affected school(s) – dates of meetings/letters. Good practice suggests all staff (including non-teaching) should be consulted as well as pupils

Summary and assessment of views received – how were these taken into account before the publication of the DP?

Board of Governors, Seaview PS, Glenarm

Consultation Summary available at Appendix F.

The Board of Governors (BoGs) and teaching staff at Seaview Primary School (PS) have been consulted on a number of occasions throughout the process to submit a Development Proposal (DP) and this Case for Change (CfC) document. They have also contributed considerably to this CfC document. The BoGs were consulted on 16 May 2019, 18 June 2019, 12 September 2019 and 22 November 2019 via open forum meetings and emails. The BoGs unanimously voted to submit a DP to the Department for Education (DE) to transform Seaview PS to integrated status on 17 May 2019.

Teaching staff were consulted with on 24 and 30 May 2019, 5, 10, 14 June 2019, 12, 19 September 2019, 3, 10 October 2019 and 8, 15, 22, 29 November 2019 via open forum meetings. The practice of Seaview PS regarding consultation with staff is to update and consult with teaching staff on a regular basis at weekly staff meetings and non-teaching staff at monthly staff meetings. Teaching and non-teaching staff provided their views on the following: how subjects, such as Religious Education (RE) and Physical Education (PE) will be taught; and attracting children of Catholic, Protestant, other faiths and those who do not belong to a particular tradition to Seaview PS whilst maintaining the enrolment of Catholic children in the Glenarm area. All staff are supportive of this DP and transformation to integrated status.

Parents were consulted on: 30 May 2019 via an information evening/meeting (with a ‘Questions and Answers’ session); 28 June 2019 via a school meeting and the release of the parental vote to transform Seaview PS to integrated status; 13 and 14 July 2019 at Dalriada Festival, Glenarm village where staff and BoGs consulted with parents in an open forum via sharing a stall with the Integrated Education Fund (IEF) and conducting a sports day event; and 3 October 2019 via an information evening/meeting (with a ‘Questions and Answers’ session). The parental vote evidenced that 95.3% of parents support the transformation of Seaview PS to integrated status. Seaview PS also received widespread support and expressions of interests at Dalriada Festival and sports day.

Seaview PS held ‘Pop-up’ days on 12 June 2019 and 4 December 2019. These proved to be opportunities for the public, parents, prospective parents and pupils to visit Seaview PS during the school day and observe the teaching practice
and daily school life of pupils and staff. This included consultation and consideration of views and opinions held by the public whilst providing an appropriate arena for staff and pupils to provide further information and answer any queries. All views received were very positive and supportive of the transformation of Seaview PS to integrated status.

The community of Glenarm were consulted on: 28 June 2019 via a school meeting and the release of the parental vote to transform Seaview PS to integrated status; 13 and 14 July 2019 at Dalriada Festival, Glenarm village where staff and BoGs consulted with the community and the wider Northern Ireland public in an open forum via sharing a stall with the Integrated Education Fund (IEF) and conducting a sports day event; and 10 October 2019 when an open information evening and meeting was held in the school hall. A ‘Questions and Answers’ session was also included. Members of the community included local councillors, members of the clergy of various faiths, Chairperson and members of Glenarm Village Committee. Various communication channels were utilised e.g. posters displayed in local businesses and on social media as well as leaflet drops to all houses in Glenarm, to notify and encourage as many members of the public to attend and contribute to the consultation process. All views received were very positive and supportive of the transformation of Seaview PS to integrated status.

Glenarm ‘Mother and Tots’ and Cairncastle ‘Mother and Tots’ were consulted on 12 November 2019. Glenarm Community Pre-school parents were consulted with on 26 November 2019. Seaview PS received widespread support and expressions of interests at these information consultations.

Seaview PS pupils were consulted on 31 May 2019 when their views on Seaview PS transforming to integrated status were considered and recorded (see section 5.3 of this report). Seaview pupils are regularly consulted at School Council meetings were the pupils’ views and thoughts are discussed and considered. School Council meetings took place on 18 June 2019 and 22 October 2019. More are planned throughout 2020.

Our journey to integrated status is also a regular topic of discussion at weekly school assemblies.
Some Seaview pupils also attended Dalriada Festival on 13 and 14 July 2019 where further consultations occurred in a relaxed arena during the participation of a sports day event.

Following each individual consultation the BoG fully considered the views received from Seaview PS staff, parents, pupils and the Glenarm community to ensure they fed-into this Case for Change document. The BoG ensured all consultations took place in a timely fashion and prior to the publication of this DP. This ensured that all views were considered and stakeholders support for the transformation of Seaview PS to integrated status could be reflected within this Case for Change document.

Seaview BoGs have been overwhelmed by the support shown by Seaview PS staff, parents, pupils and the Glenarm community for the proposal to transform Seaview PS to integrated status.

Provide detail of consultation with schools that may, in the EA’s opinion, be affected by the proposal – list of schools, dates of letters issued to schools/meetings.

Summary of views received (number of responses, recurring themes, petitions, community support or opposition).

Responses/Assurances in respect of issues raised during consultation.

Dates of EA meetings e.g. Education Committee/Board, etc.

Details of issues raised by members of EA Board

In accordance with Article 14 of the Education and Libraries (Northern Ireland) Order 1986, a copy of the proposal was sent on 24 September 2019 to schools who, in the opinion of the Authority, might be affected by the proposal. A total of 32 local schools who might be affected by the proposal were forwarded correspondence. Comments were invited from the Boards of Governors and Trustees, to be returned to the Education Authority by 2 March 2020.

Four responses were received (three from local schools and one from the Controlled Schools’ Support Council).

The emerging themes/comments from the responses received included:

- There is adequate integrated provision in the Carnlough/Glenarm area.
- Current integrated provision is not at capacity.
- Duplication of provision is not required.
- This option would result in two unsustainable schools in the area.
- The June 2019 proposals (closure of Carnalbanagh and Seaview Primary Schools) will provide sustainable and quality education for the area.
- Growth of current integrated provision has been hampered by the current site.
- A neutral site is required to allow integrated provision to grow in the area.
- ‘Mono-religious’ villages where one only side of the community is provided for should be avoided.
- DE has a duty under Article 64 to encourage and facilitate the growth of integrated education.
- CSSC: notes the concerns expressed by controlled schools in the area on the impact on sustainability of neighbouring schools in an area in which the population is predicted to decrease.

This development proposal was discussed by the EA’s Education Committee at its meeting on 19 March 2020.

**NAME:** Michele Corkey  
**OFFICE HELD:** Director of Education  
**SIGNED:**  
**DATE:** 19 March 2020

The Education Authority recognises its duty to support DE to encourage and facilitate integrated education under the Education Reform (Northern Ireland) Order 1989. A Policy for Sustainable Schools identifies a minimum of 105 pupils for a primary school. The proposal to transform Seaview PS does not demonstrate how this figure can be achieved, nor does it demonstrate how the religious balance for an integrated school will be achieved to provide a controlled integrated school.

The EA has worked with CCMS and NICIE to find a joint area planning solution, for the area, which would be acceptable to all three schools, including a ‘community conversation’ facilitated by Ulster University. However, a single solution could not be agreed. As a result of a single school solution not being agreed, the following proposals were brought forward for consultation:

EA: Development Proposal No 594 Carnalbanagh Primary School will discontinue with effect from 31 August 2021, or as soon as possible thereafter; and
| CCMS: Development Proposal No 611  
Seaview Primary School will discontinue with effect from 31 August 2021, or as soon as possible thereafter.  

The above proposals, should they be approved, would result in two schools for the Carnlough and Glenarm area: Carnlough Controlled Integrated PS and St John’s PS, Carnlough. Carnlough CIPS is located 2.9 miles from Seaview PS and has available capacity. It is acknowledged that Carnlough CIPS does not currently meet the Sustainable Schools Policy but, with the proposed discontinuance of both Carnalbanagh PS and Seaview PS, the school would provide controlled integrated provision for the area. If Seaview PS transformed to controlled integrated status, this would negatively impact on the enrolment numbers and sustainability at Carnlough CIPS.  

In consideration of the information presented in the Case for Change, the Education Authority does not support the Development Proposal 648 for the transformation of Seaview PS to controlled integrated status. |
The Case for Change

20 December 2019
1. BACKGROUND

Seaview Primary School (PS) is a co-educational maintained PS situated on New Road in the village of Glenarm. Its catchment area extends throughout the village and surrounding areas of Feystown, Carnalbanagh, Cairncastle, Ballygally and Carnlough. The present Seaview PS opened in 1965 and replaced a school that had been in operation from 1888.

Approximately 87% of the pupils live within three miles of the school and approximately 93% of the pupils live within a five-mile radius of the school. Map 1 illustrates the spread of pupils and where they live.

**Map 1 – Distribution of current pupils at Seaview PS 2019/20**

On 28 April 2017, the Education Authority (EA) published Providing Pathways - Strategic Area Plan for School Provision 2017-2020. The EA’s subsequent Action Plans (April 2018-March 2019) refer to the need to review the future provision of primary education in the Carnlough/Glenarm area as specified in Table 1 below:
Table 1: Action Plan for Carnlough/Glenarm Area

</tr>
</tbody>
</table>

Initial exploration of transformation potential by Seaview BoG began in 2012. The ‘Glenarm Regeneration Strategy’ was published in 2014. This included engagement with the Northern Ireland Council for Integrated Education (NICIE) with an overarching aim of delivering sustainable education in the Glenarm and Carnlough area through the creation of a sustainable development process. Seaview’s BoGs consulted again with NICIE about transformation to integrated status in 2016.

‘Carnlough and Glenarm Community Conversation’

The Seaview PS profile as a shared, integrated and community school has been promoted for many years but this has increased dramatically in recent years and, in particularly, following the publication of ‘Carnlough and Glenarm Community Conversation: Gathering views on local primary school provision’ (the ‘Community Conversation’) by the School of Education, University of Ulster in January 2018. Accordingly, interest in an integrated school in the village of Glenarm expanded exponentially.

The ‘Community Conversation’ was commissioned by the Integrated Education Fund (IEF) and reviewed the future of primary school provision in the Carnlough/Glenarm area. The ‘Community Conversation’ documented the views of the communities affected and included the four schools affected: Seaview PS, Carnlough Controlled Integrated Primary School (Carnlough CIPS), St John’s PS and Carnalbanagh PS.

The Executive Summary of the ‘Community Conversation’ report noted the following:

*While a range of views were obtained through the community conversation, overall, participants’ strongest preference, in terms of sustainability of provision, was for the retention of two schools – one in each village. The most popular choice was for St John’s PS to remain in Carnlough and the amalgamation of Seaview PS and Carnlough Controlled Integrated PS as one integrated school in Glenarm. While there was general agreement that any re-location of integrated education should be to a new site to remove historic sectoral associations, the Carnlough CIPS school community would favour the retention of integrated provision through their school. A small number of respondents*
emphasised that the option of controlled education with a Protestant ethos should remain in the area. (p. 3).

Given that St. John’s PS met the Sustainable School’s policy criteria, it was no longer part of the process.

A series of consultation meetings attended by representatives from: the University of Ulster; IEF; EA; CCMS; Carnlough CIPS; Carnalbanagh PS and Seaview PS (from January - April 2019) followed the ‘Community Conversation’ and community consultation. At the meetings, the potential of a shared local solution involving all three schools was explored. It became apparent that the Seaview school building was the only viable and sustainable option in the area where all three schools could amalgamate, given that it has five classrooms, the capacity for 121 pupils and the potential for further expansion. Map 2 (page 16) details the size of Seaview PS’s building and potential areas for expansion.

Although Seaview BoGs’ previously preferred option was to amalgamate with Carnlough CIPS and Carnalbanagh PS, and provide a local shared solution, unfortunately there was no agreed joint consensus.

Following this it was clear that, after many years of research and planning, and Seaview BoGs commitment to the potential opportunities that Transformation could provide for the locality, the time was right for the Glenarm community and Seaview PS to formally seek to establish an integrated primary school in the village of Glenarm.

**CCMS Meeting May 2019**

The Principal and Chairperson of the BoGs at Seaview PS met with CCMS and EA officers to discuss viable options for Seaview PS’s future on 13 May 2019. CCMS disclosed its plan to proceed with a pre-publication consultation on a Development Proposal (DP) for the discontinuance of Seaview PS from 31st August 2020. Seaview Principal and Chairperson were strongly opposed to the proposal and requested that CCMS considered amending the proposed closure date of the school from 31 August 2020 to 31 August 2021. This was an attempt to enable Seaview PS to further investigate the potential for transforming to a controlled integrated primary school. CCMS facilitated this request.

Having consulted with NICIE on Transformation to integrated status in 2016, Seaview’s BoGs consulted again with NICIE and the IEF. However, these consultations were focused on the commitment to transform Seaview PS to integrated status and commence the transformation process with immediate affect.

**Voting for Transformation**

Seaview PS BoGs unanimously voted to commence the process to transform Seaview PS to a controlled integrated primary school on 17 May 2019. At this time, parents had also voted online via [www.integratemyschool.com](http://www.integratemyschool.com) to initiate the process of transformation.
A parental ballot was initiated on the proposed transformation of Seaview PS to controlled integrated status on 14 June 2019. The parental ballot closed on 28 June 2019. An overwhelming 95.3% of parents voted in favour of transforming Seaview PS to a controlled integrated primary school. This was a clear endorsement for Seaview BoGs to progress with the Statutory Transformation Process.

Since then local public opinion has been very positive and Seaview PS has seen a substantial rise in student numbers from 42 pupils in June 2019 to 67 in September 2019. This is a marked deviation from a fairly consistent enrolment trend in recent years (Table 3.1 refers which is available on page 14 of this document). This 60% increase in enrolment figure appears to be statistically significant. Whilst we cannot be absolute about the reasons for this correlation, we surmise that this is directly related to the commencement of the Statutory Transformation Process, creating fairly strong preliminary evidence that our local community supports Transformation. Seaview PS BoGs are not aware of any other influencing variables.

Seaview's DP is to transform Seaview from a Catholic Maintained Primary School to a Controlled Integrated Primary School on 1st September 2021, or as soon as possible thereafter.

1.1 SEAVIEW PRIMARY SCHOOL – Characteristics of the Area

The estimated population of Mid and East Antrim Local Government District (LGD) at 30 June 2018 was 138,773 of which 68,082 (49.1%) were male and 70,691 (50.9%) were female.

This estimated population figure was made up of:

- 26,785 children aged 0-15 years;
- 39,306 people aged 16-39 years;
- 46,642 people aged 40-64 years; and
- 26,040 people 65 years and older.

Between 2008 and 2018 the population of Mid and East Antrim LGD increased by 4,604 people or 3.4%.

Ward

Whilst the children enrolled at Seaview PS come from a range of Council district wards, five in total, Seaview PS is located in the Glenarm district ward.

The 0-15 year old population is predicted to decrease by 3.1% in the Glenarm council area in the decade 2016-2026 (NISRA).

The Census for the resident population of the Glenarm Ward recorded on 27 March 2011 provide figures that represent:
• 99.89% were from the white (including Irish Traveller) ethnic group;
• 41.33% belong to or were brought up in the Catholic religion; and
• 54.84% belong to or were brought up in a ‘Protestant and Other Christian (including Christian related)’ religion.

NISRA statistics illustrate that 11.77% of households in the area do not have access to a car or van. Public transport is therefore relied upon to transport some children to primary schools in the locality.

**Super Output Area – Glenarm Ward in which Seaview PS is located**

The Northern Ireland Multiple Deprivation Measures (NIMDM) 2017 provide information on seven types of deprivation and an overall measure of multiple deprivation for small areas.

Super Output Areas (SOA) are ordered from the most deprived to the least deprived on each type of deprivation and then assigned a ranking figure. The most deprived SOA is ranked 1, and as there are 890 SOAs, the least deprived SOA has a ranking of 890.

The deprivation rankings for Glenarm Ward SOA are provided in Table 2 below. The table also includes the proportion of people/children/older people living in income deprived households, as well as the proportion of the working age population that are employment deprived.

2.2 Population Analysis of the Glenarm Area

Table 4 records the birth rates for the Glenarm Super Output Area (SOA) over the 10 academic years from 2007 to 2016. The average annual birth-rate, averaged over five years from 2012, is 19.4 live births per annum. Table 4 illustrates that there has not been a significant increase in births for the Glenarm SOA over a 10 year period.

Table 4: Annual Live Birth by Academic Year

<table>
<thead>
<tr>
<th>Statistics: Glenarm Super Output Area</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Year</strong></td>
</tr>
<tr>
<td>Live Births</td>
</tr>
</tbody>
</table>

Source: www.nisra.gov.uk/statistics

However, assuming the average number of pupils attend Seaview PS, the P1-7 enrolment has the potential to increase to 135 pupils.

The presence of an integrated PS in Glenarm village has the potential to attract younger families to the area which could increase enrolment figures further than the ‘annual live birth rate’ figures suggest.

Glenarm Regeneration Strategy

In February 2009 HRH the Prince of Wales visited Glenarm and met with local stakeholders to discuss the future of the village. As a result, the Prince’s Foundation for
the Built Environment (PFBE) were invited by Mid and East Antrim Council (the Council) and the Department of the Environment (DoE) to conduct an Enquiry by Design (EbD) workshop in Glenarm. The aim of this workshop was to engage with stakeholders to produce a strategy for the sustainable regeneration and growth of the village through the promotion of education, planning and placemaking by design. The workshop took place from 16 -18 February 2010. Over 180 local residents contributed to the process.

Accordingly, the village of Glenarm is poised for redevelopment with a carefully planned regeneration strategy. The Glenarm Regeneration Strategy was first launched in 2010 which significantly influenced the Council’s masterplan process and aimed to assist the village in its social, economic and physical regeneration.

The Council recently released a development brief for the Eglinton Yard Harbour site (opposite Seaview PS) which attracted a private sector investor (this remains commercially sensitive and is now subject to ongoing contract negotiations). This potential development is a welcome and positive economic generator for potential job creation within the village, attracting families and subsequently potentially new pupils to Seaview PS.

The Council has advised Seaview BoG that they are hopeful that “an investment mix within the village will strengthen the social and economic development… which would be conducive with educational and school investments”.

There are currently a number of development sites in the village for family homes, both individual and multi home developments. When these development opportunities are realised it is vital that an option exists for education within the local community for all children; Catholic, Protestant, other faiths and those who do not belong to a particular faith or tradition.

2.3 Quality of Accommodation

Seaview PS is constructed on a site of 0.28 hectares/0.68 acres. As per the Schedule of Accommodation (Appendix A). Appendix B also provides evidence of the Seaview PS site and accommodation information in support of this DP. There are five viable classrooms; each with interactive whiteboards which can comfortably accommodate 30 pupils with one teacher and two-three classroom assistants. These classrooms were upgraded and refurbished in 2001/2002.

The school building is well-maintained and of a high quality. Classroom furniture, doors, architraves, floors, walls, bathrooms and communal areas e.g. cloakrooms, library, assembly hall and kitchen, are maintained at a high standard.

Minor improvements were carried out in 2007/2008 (Appendix C refers). These included a toilet refurbishment and upgrades to all fire doors and the fire alarm system.
The extensive grounds surrounding the school and the council-owned land alongside it, offer the potential for further extension/development (if required). See Map 2 below.

Map 2 – Seaview PS site

3 SUSTAINABILITY ASSESSMENT

The main focus of the area planning process is embedded in the ‘Sustainable Schools Policy (SSP), Schools for the Future – A Policy for Sustainable Schools’ (Department for Education Northern Ireland [DE] 2009) and applies to primary and post-primary schools. The policy sets out six sustainability criteria, and associated indicators, which are identified as the key references for assessing existing education provision to ensure it adequately meets the needs of pupils. These criteria are considered in relation to Seaview PS at sections 3.1 - 3.6 of this report.
3.1 SSP1: Quality Educational Experience

3.1.1 Composite Classrooms and number of teachers

Currently, Seaview PS has three composite classes and one taught class. Seaview PS has avoided having composite classes of more than two year groups in the morning time (Table 5 refers).

Table 5: Current Teaching Structure September 2019-March 2020 (Monday-Friday)

<td>P5/6/7</td>
</tr>
</tbody>
</table>

*Note the Part-Time teacher works five half days per week

Source: Seaview PS, Glenarm (September 2019)

Seaview PS aims to extend the composite classes of no more than two year groups in both the mornings and afternoons post-March 2020. This will require the employment of a fourth full-time teacher (Table 6 refers).

Source: Seaview PS, Glenarm (September 2019)

The SSP indicates the following criteria for a sustainable school: “No more than two composite year groups in a single classroom at PS level and a minimum of four teachers at a PS. This recognises both the needs of pupils and the demands on teachers.” (p. 47)
The above two indicators for the criterion of ‘Quality Educational Experience’ are currently met by Seaview PS during morning sessions (9:15 -12:30) September 2019 - March 2020. It is anticipated (as evidenced in Table 6 above) that this criterion will be achieved for the entire school day post-March 2020.

3.1.2 The standards and the quality of learning and teaching at the school

The ETI follow-up Inspection in February 2014 noted the following:

“The very good quality of the learning and teaching observed during the follow-up inspection meets the children’s learning needs well and provides increased levels of challenge for all.” (p. 3)

“In the areas inspected, the quality of education provided by this school is very good. The school is meeting very effectively the educational and pastoral needs of the children; and has demonstrated its capacity for sustained self-improvement.” (p. 3)

Seaview PS also offers pupils a wide range of after-school activities which change each term (Table 7 refers).

Source: Seaview PS, Glenarm (September 2019)

Seaview PS offers computer and music clubs e.g. guitar, on different terms throughout the school year. Piano lessons are also offered during the school day. The school choir has practice classes on a Friday afternoon and performs at a variety of seasonal, cultural and local events throughout the school year. The school choir participated in the Education Authority’s ‘Belfast Carols’ at the SSE Arena, Belfast on 14 December 2019. Seaview PS pupils and children in the local community enjoyed a Christmas movie night in Seaview PS’s hall on 18 December 2019.

The standard and quality of learning and teaching provided at Seaview PS can be viewed on youtube at: https://youtu.be/5jsuC8u2qXL

3.1.3 The quality of the physical environment for learning and teaching

School teaching staff utilise the village and its local amenities for as much outdoor learning as possible. This further enhances and develops the pupil’s learning experience from the classroom to practical learning using local amenities. These amenities include: Straidkilly
Nature Reserve for Forest School; Glenarm Castle for historical learning; local farm visits; fish farm visits; beach numeracy and environmental care; visits to local businesses e.g. The Steenson’s jewellery workshop and the local supermarket, for literacy learning and development; local buildings for tessellation/numeracy activities; Glenarm village MUGA and play park (opposite Seaview PS), for PE sessions; and morning walks to the ‘Mad Man’s Window’ during the “Daily Mile” initiative.

Seaview PS currently has two tarmacked and grassed playgrounds on site:

Playground one is 1145sqm and is predominantly used by P1 and P2 pupils during break and lunchtimes.

Playground two is 2753sqm and is utilised by P3-7 pupils during break and lunchtimes.

The playgrounds are often used during spring, summer and autumn terms for PE, reading and ‘World Around Us’ (WAU) learning and awareness.

Seaview PS also has a large grass area (280sqm) adjacent to playground 2 used during dry weather for a variety of sporting and learning activities. It includes a secure school pond which facilitates further curricular and biodiversity learning.

The school grounds accommodate an area for free range chickens which is part of the pupils ‘School Business’ – selling free range eggs to the local community which, alongside the active recycling of batteries, evidences Seaview PS’s commitment to its Green Flag status. As one of the few ‘Eco-Schools’ along the north coast, the pupils care for the hens daily on a rotating basis and are responsible for the accounts of money generated through the sale of the eggs. Pupils decide how the income is spent to enhance pastoral and learning events.

### 3.1.4 The quality of, and arrangements for, pastoral care including the active promotion of the principles of social justice in all areas of the formal and informal curriculum

An ETI inspection of Seaview PS in November 2011 noted:

“The quality of the arrangements for pastoral care in the school is very good. Among the strengths are: the very caring and inclusive ethos; the friendly, courteous and well-behaved children; the very good working relationships between the staff and the children; the positive reward system which places a high value on the children’s efforts and personal achievements; the development of the children’s self-esteem and confidence, and the celebration of their work; the children’s participation in a wide-ranging extra-curricular programme; and the ‘House System’ through which the children’s views about school life are sought and valued.” (p. 2)

A follow-up ETI inspection in February 2014 also noted:

“The school is meeting very effectively the educational and pastoral needs of the children.” (p. 3)
The report of a ‘Sustaining Improvement Inspection’ (involving action short of strike) in May 2017 recorded:

“During the inspection, the school provided evidence that satisfactory arrangements for safeguarding reflect broadly the guidance issued by the relevant Departments. In discussion with the inspector, a group of children from year 6 and year 7 reported that they enjoy school, feel safe and know what to do if they have any concerns about their wellbeing. However, owing to the action short of strike, the ETI was unable to evaluate fully the outworking of the arrangements for safeguarding in the school.” (p. 2)

Local Ministers and Priests attend the school each term on a rotational basis to conduct school assemblies e.g. Methodist Minister conducted assembly during ‘the Harvest’, the Parish Priest conducted a school assembly in November for ‘All Saints Day’, the Church of Ireland Minister visited pupils in December 2019. These visits have proved very interesting for the pupils of Seaview PS who enjoy learning about the beliefs and practices of all sections of their community. More school assemblies are scheduled during the periods of Advent and Easter. This encourages and demonstrates effective practice in the DE’s ‘Community Relations Equality and Diversity in Education’ (CRED) by assisting Seaview PS pupils to build relationships with others from different backgrounds and traditions.

Seaview PS offers a daily healthy breakfast club, Monday to Friday, from 8.30 - 9.15am. This is a well-supported service which is utilised by 50% of pupils on a daily basis and regularly hosts 30 pupils.

3.2 SSP2: Stable Enrolment Trends

3.2.1 The enrolment trends in the school in the past three years and projected demand in the area

Table 8 evidences that pre-2019/20, Seaview PS enrolment figures were below the SSP figure of 105 pupils.

Source: Seaview PS, Glenarm (September 2019)

However, there has been a significant increase in the short term from 42 pupils in 2018/19 to 70 pupils in 2019/20. This represents a dramatic 66.6% increase in Seaview PS pupil population.

Seaview PS BoGs believe that this has been achieved mainly due to:
- Seaview PS’s announcement to submit a Development Proposal and ‘Case for Change’ to the DE to transform to controlled integrated status;
- the “very good learning and teaching” documented by the ETI (follow-up Inspection 2014, p. 3); and
- the excellent reputation in relation to the high standard and quality of education provided at Seaview PS acknowledged by the Glenarm community and wider local community.

It is anticipated that Seaview PS enrolment figures will continue to experience a significant increase in the medium to long term future given the demand for primary school provision in Glenarm village.

Table 9 below details:

1. Where pupils in the current academic year come from;
2. The religious make-up of the areas pupils come from;
3. The distance they live in relation to Seaview PS; and
4. All pupils are within 6.325 miles of the school (as the crow flies).

Source: ‘Expression of Interest’ forms received by Seaview PS, Glenarm (December 2019)

*Seaview PS BoGs expect these figures to increase if this DP is successful.

It is worth noting that Seaview BoGs have been verbally advised by parents in the locality that a significant number of them are awaiting the outcome of this DP before committing to sending their child/children to Seaview PS. Other parents chose to attend Seaview PS Open Day before making a decision.

The ‘Expression of Interest’ forms received evidence that the enrolment intake for pupils in 2020/21 represent 61% of pupils identify with the Roman Catholic community; 22% of pupils identify with the Protestant community; and 17% of pupils identify with no/other community.

The identity recorded by current (2019/20) pupils evidence that 49% identify with the Catholic community; 35% identify with the Protestant community; and 16% identify with no/other community.

As mentioned previously, Table 4 documents the annual birthrate in the Glenarm area as 19.4. Accordingly, if all of these pupils come to Seaview PS, the total enrolment could potentially increase to 135 pupils.

### 3.3 SSP 3: Sound Financial Position

#### 3.3.1 The school’s annual finances indicate that it can live within its delegated budget

All schools receive delegated budgets and have the authority to determine expenditure from these budgets. EA Guidance for Controlled and Maintained schools requires that they should not accumulate surpluses or deficits in excess of 5% of their delegated budget or £75,000, whichever is the lesser.

A copy of the Annual Area Profile 2018 for Seaview PS is attached at Appendix D. It offers some insight into the school’s past financial position and enrolment history. It also evidences that the school has continually kept within the recommended 5% budget.
Table 11 provides information from Seaview PS’s three year financial plan (2019-2022). The plan is based on a school enrolment figure of 65 pupils in 2019/20, and projections of 73 pupils in 2020/21 and 81 pupils in 2021/22 (P1 – P7).

**Table 11: Financial Position 2019-22**

Source: Seaview PS, Glenarm (September 2019)

Seaview PS’s financial plan indicates an anticipated surplus for Year 1 and Year 2 with a slight deficit in Year 3. All figures are within the EA’s 5% budget guideline (Appendix E also refers).

Whilst the financial plan is based on anticipated annual enrolment figures of 65, 73 and 81 pupils, over this three year period, the actual enrolment in 2019/20 was 70 pupils the ‘Expression of Interest’ forms received by Seaview PS to date evidence an enrolment figure of 80 pupils in Year 2 and 78 Pupils for Year 3.

A further obvious impact from increasing pupil numbers is the associated financial gain. This subsequently permits enhancement in teacher numbers and reduces the need for composite classes across the school day/week.

### 3.4 SSP 4: Strong Leadership and Management by Boards of Governors and Principal

#### 3.4.1 ETI Inspection Report

The ETI inspection report in February 2014 included the comment:

“The collegiate whole school approach to school improvement under the effective leadership of the principal, who is providing strategic direction for the school and the highly effective teamwork of the entire staff have brought about significant improvements in the overall quality of the provision and the standards which the children attain.” (p. 2)
The report of a Sustaining Improvement Inspection (involving action short of strike) in May 2017 noted:

“The ETI was able to evaluate aspects of the quality of the school’s self-evaluation processes to inform the school development plan (SDP). The SDP is comprehensive, devised through appropriate consultation and identifies priorities along with clear action plans to bring about improvement in the learning experiences for, and the outcomes achieved by, the children.” (p. 1)

3.4.2 Composition of Board of Governors – skills and experience of Board members and number of vacancies

The BoGs benefit from a wide range of skills and includes representation from parents, teachers, school Principal, Trustees and the DE.

The report of the ETI inspection in January 2011 recorded:

“The governors are well-informed about, and maintain a strategic overview of, the school’s improvement agenda. They are involved actively, and support effectively the Principal and the staff, in the SDP process. There are very good opportunities for consultation about the SDP within the school community.” (p. 6)

Seaview PS BoGs currently has its full complement and is composed of a mix of male and females. These individuals are from a number of different backgrounds who bring various skills and expertise along with knowledge and experience of the local area. This mix ensures the strategic oversight, direction and vision of the school to assist in its robust management and good governance.

The provision of education and in particular, integrated education for the future of the children in the Glenarm village and the surrounding rural area, is of upmost importance to every governor, many of whom have a vested interest in the school and the community.

Seaview BoG have regular informative meetings to keep up to date and to maintain excellent working relationships with each member, the school Principal and all staff. When required, relevant information is also communicated to parents and the local supportive community through school bulletins, information sessions, attendance at Village Committee meetings and the publication of newspaper articles.

As stated earlier, Seaview BoGs is comprised of a good skills mix. We are confidently led by our Chairperson who has many years’ experience as a senior investigator for the Northern Ireland Public Service Ombudsman and has the associated experience in dealing with complaints from the public on NI public services and councillors. This brings the skills of dispute resolution, investigative skills, report writing and knowledge of NI
public services, policies and procedures. She also brings the added experience of understanding the importance of confidentiality, accountability and dealing with sensitive situations.

The Principal and teacher governors have numerous years’ experience from different teaching backgrounds in providing excellent understanding of current education policies and practices. Their management skills, excellent interpersonal and professional skills enables good relationships with the BoGs, parents, pupils and local community.

We are fortunate to have a further teacher as a governor with years of experience in teaching in a rural school. She also fully understands the need, benefits and challenges of providing education in a rural setting.

Other governors bring a financial background to the Board, sharing skills from vast experience in many situations such as stakeholder, risk and issue management, project management, people management and business improvement.

A governor on the Board is also a local Alderman who has local residents interests’ at heart and brings a wealth of knowledge about current political and social situations. Seaview PS has a Consultant Child and Adolescent Psychiatrist and a Clinical Specialist Sonographer on its BoGs. These governors have numerous years of experience working for the National Health Service (NHS) and the Clinical Specialist Sonographer has also experience working in the private sector. These individuals understand the challenges working under constraints, managing appointments and dealing with the general public. Moreover they understand the importance of confidentiality, accountability and hold the necessary skills in dealing with sensitive situations.

Our parent governor plays a vital role with a vested and healthy interest in Seaview PS. As a past pupil with two children currently attending Seaview PS and a further three siblings to follow, she passionately supports Seaview PS’ vision to provide integrated education in the Glenarm area.

Seaview PS governors have the vital skills mix as outlined above including, selflessness, integrity, objectivity, accountability, openness, honesty and leadership. These skills assist in ensuring pupils enjoy a high standard of education in a safe and happy environment with the vision of an integrated and fully inclusive ethos at the forefront of its vision for Seaview PS.

3.4.3 Management of staff attendance and absenteeism

There have been no major concerns with staff attendance and absenteeism.
The report of the ETI inspection in January 2012 recorded:

“Owing to the size and context of the school, the co-ordinators have multiple roles and responsibilities. The roles have, however, been reviewed recently and are clearly defined. There is very good internal communication, and a strong sense of openness and collegiality within the school.” (p. 5)

3.4.4 Pupil behaviour, expulsions, suspensions and non-attendance as well as positive behaviours such as involvement in school management (e.g. buddying and mentoring schemes)

The report of the ETI inspection in January 2012 recorded:

“The children in year 6 spoke positively about the caring and friendly atmosphere within the school, their enjoyment of practical subjects and physical activity, and acknowledged the support they receive from their teachers. They reported that they feel safe, and know whom to turn to in the event of a concern.” (p. 1)

Seaview PS has a buddying system where Key Stage 2 pupils guide and mentor Foundation Stage pupils during break and lunch time. This involves a variety of roles including: creating games; ensuring no one is isolated or ‘left-out’; comforting pupils if they fall; encouraging pupils to line-up properly; and ‘being a buddy’.

There have been no incidents of suspension or expulsions from Seaview PS since the current Principal has been in post (01/02/2013).

3.5 SSP5: Accessibility

3.5.1 Distance to another suitable PS

For those children travelling to Seaview PS from the rural areas of Feystown and Cairncastle, their already long journey would increase by an additional 2.7 miles if travelling to St John’s PS, Carnlough and 2.8 miles if travelling to Carnlough CIPS (Source: Google Maps). This would add to the length of the school day for pupils. Pupils travelling further to school in Larne and Glenariff/Cushendall could experience an additional 10 and 13 miles respectively.

Evidence from the LucidTalk poll, included in the UU Community Conversations report indicated:

- 78.3% felt a reasonable maximum distance for children to travel to PS was “up to 5 miles”.
- 81.1% rated the “Distance to the School from their Home” as either Very Important or Important.
- 75.9% rated the “Availability of Good Transport to and from the School” as Very Important or Important.
The EA Transport policy states that “Transport assistance will be provided to a suitable school of the parents/guardians choice if there is not a suitable school within two miles from their home.” Accordingly, a change to current Seaview PS pupils daily school journey could result in multiple transport alternatives to be provided by the EA.

### 3.5.2 Capacity in nearest schools

The nearest primary schools to Seaview PS are Carnlough CIPS and St. John’s PS, Carnlough. The following provides the capacity of each school separately.

**Carnlough CIPS:**

- Approved enrolment for 2018/2019 was 62 pupils, with a recorded enrolment of 27. (EA Primary Schools’ Annual Area Profile - 2019). For the same period 2018/2019 Seaview PS’s enrolment was 42.
- Seaview PS’s current enrolment (January 2020) is 70 pupils (Source: Seaview PS).

**St John’s PS, Carnlough:**

- Approved enrolment for 2018/2019 was 192 pupils, with a recorded enrolment of 126 (EA Primary Schools’ Annual Area Profile - 2019). For the same period 2018/2019 Seaview PS’s enrolment was 42.
- Seaview PS’s current enrolment (January 2020) is 70 pupils (Source: Seaview PS).

Enrolment and capacity in primary schools in the vicinity of Seaview PS is evidenced in Table 12.

**Table 12: Enrolment and Capacity in local schools with distance from Seaview PS**

3.6 SSP 6: Strong Links with the Community

3.6.1 Multi-functional use of buildings outside formal education, for example, for sport, voluntary and community use

A report of an Inspection of Seaview PS in November 2011 recorded:

“The school gives a high priority to maintaining a wide range of productive links with the parents and the local community. The children’s learning experiences are enhanced through a cross-community partnership with the local PSs through the Primary Integrating Enriching Education project. There are also effective links with other local schools which broaden the children’s extra-curricular opportunities. The parents are kept well-informed about the work and life of the school through regular newsletters.” (p. 2)

Seaview PS is in its fourth year of its Shared Education programme, ‘Primary Integrating Enriching Education’ project, with Carnalbanagh PS and Carnlough CIPS.

Seaview PS supports various partnerships with the local community. We believe this enhances pupils’ learning and development skills and promotes a greater understanding and respect for the local community and all that it offers. Local people attend the school to provide advice and learning for our young people e.g. Police Service Northern Ireland (PSNI), Postal Service, National Society for the Prevention of Cruelty to Animals (NSPCA), local residents providing insight into life during World War 2 and other educational topics, as well as guitar, piano and pottery lessons.

Seaview PS has strong links with local businesses, groups, organisations, churches and schools to ensure sustainable links with the local community. These include:

Glenarm Castle, Walled Garden and Antrim Estate (including Dalriada Festival);
Northern Salmon;
The Steenon’s Jewellers;
The local Spar supermarket;
Local singer/songwriter, Ben Glover.
Glenarm Village Committee;
Glenarm Wildlife Group;
The Glens Squirrel Group;
Glenarm in Bloom;
Glenarm Community Market;
Larne Arts;
Glenlough Running Club;
Shane O’Neill’s Hurling Club;
Glenarm Coastal Rowing Club;
Friendship groups with older people in the community and local assisted living facility, ‘Forest Glen’;
Glenarm Parish, Church of Ireland, Baptist Church, Methodist Church and Presbyterian Church who visit Seaview PS and conduct school assemblies throughout the school year; and
Glenarm Community Pre-School.

**Seaview PS choir is involved in the following community events:**
The switching on of Larne and Glenarm Christmas Tree Lights every year;
‘Christmas Show’ for parents and the local community;
Belfast Carols at the SSE Arena, Belfast; and
Singing for the elderly residents at ‘Forest Glen’ throughout the school year;

**Local clubs and organisations also use the school hall for:**
Exercise/bootcamp classes;
Senior Citizen luncheons;
Yoga;
Whist club;
Bingo nights;
Birthday parties;
Computer classes;
Opera NI to host ‘Festival of Voice’;
Mid and East Antrim Council events;
Hosting a reception for the new Church of Ireland Minister;
Hosting a visit for the former President of Ireland, [Name Redacted]; and

The high usage of the school hall has resulted in Seaview PS becoming the main hub of the village where all individuals, groups and families of all denominations and none come together to enjoy and support sustainable and inclusive village life.
Seaview PS BoGs believe strong links with the local community and parents can only enrich our pupils’ lives and encourage the promotion of mutual respect. We are also assured that we have the full confidence and support of the community Seaview PS serves in our proposal to transform Seaview PS to integrated status.

Strong links with the community have been boosted by the receipt of over 400 letters of support for Seaview PS’s journey towards integrated status (Source: Seaview PS, Glenarm, December 2019).

4 AREA PLANNING IMPACT

4.1 Outline the Area Planning context and how this proposal will contribute to the delivery of education provision within the area. How does the proposal align with the current Area Plan, its key strategic themes and actions outlined in the Annual Action Plan?

Central to our proposal to transform Seaview PS to controlled integrated status is a vision that respects and reflects the objectives documented in the SSP and implemented through the Area Planning Process.

Since 2012, Seaview BoGs have been reflecting on relevant options for a sustainable model of primary school in Glenarm. We, therefore, welcome the conclusion of the Strategic Area Planning report along with further reports detailed below. These have helped consolidate our plan to progress from a school with a strong ‘Shared Education’ ethos, to a fully recognised integrated model of education.

Our key objective is to create and further develop a high quality, sustainable primary school that is both at the heart of our community and responsive to the needs and will of that community for present and future generations. This is guided by the Core and Paramount Principles of the SSP as evidenced in section 3 of this report.

In October 2016 the EA published ‘Providing Pathways - Strategic Area Plan for the School Provision 2017-2020’. The then Minister, [blank], stated:

“The Sustainable Schools Policy, which is implemented through the Area Planning process, focuses on providing Children and Young People with high quality education that meets their needs and enables them to achieve their full potential.

The educational experience of our children and young people is greatly enhanced when they attend schools that are educationally and financially viable. The Sustainable Schools Policy is a framework for assessment of the sustainability of primary and post-primary schools. The six criteria and supporting indicators clearly illustrate what a sustainable education should look like. Schools must: deliver a broad and balanced curriculum, offer
extensive extracurricular activities, have high quality pastoral care systems and have the confidence of the communities they serve.

In primary schools pupils should be in a class with no more than two year groups but ideally they should be in single year group classes. They should be able to interact with peer groups and have the best chances to prepare for successful transition post primary school.”

Consequently, the Annual Action Plan identified Carnlough and Glenarm as an area where the EA and CCMS proposed to consult on the future of primary provision given the sustainability challenges faced in this locality.

Subsequent to this the University of Ulster’s research study, the “Community Conversation”, (as mentioned previously in this report) qualitatively evaluated the views of the main stakeholders about future sustainable educational provision within the area. In particular:

“The quality of education and holistic wellbeing of children were emphasised by principals, Governors/Trustees and parents as key priorities moving forward. In particular, the educational and social benefits of smaller class sizes, greater teacher-pupil interaction and strong community - home - school partnerships were identified as instrumental to pupils’ full educational experience.”

Thus although within the wider Area Planning context a case for limiting composite classes is well made, the above provides an additional nuanced view that whilst not in opposition, equally recognises some benefits to learning within this model.

Importantly the ‘Community Conversation’ concluded that:

“While a range of views were obtained through the Community Conversation, overall, participants’ strongest preference, in terms of sustainability of provision, was for the retention of two schools - one in each village. The most popular choice was for St John’s PS to remain in Carnlough and the amalgamation of Seaview PS and Carnlough Controlled Integrated PS as one integrated school in Glenarm. While there was general agreement that any re-location of integrated education should be to a new site to remove historic sectoral associations, the Carnlough CIPS school community would favour the retention of integrated provision through their school”.

Given the limited financial resources currently available to the DE, we believe that the evidence provided in sections 2 and 3 of this report supports the provision of integrated education for the Carnlough and Glenarm area to be situated on the Seaview PS site. We believe this site offers the most financially viable option available. The current rise in
Seaview PS enrolment figures, in particular, pupils who have transferred from Carnalbanagh PS, suggests that parents in the Glenarm area, who identify with the Protestant community, are prepared to send their children to attend PS on the Seaview PS site.

4.2 Specify links to other proposals. Provide detail on other DPs (including those in planning and not yet published) that could impact on education provision in the area, affecting consideration of this proposal and outline any reason for not bringing them forward together.

This development proposal is directly linked to a development proposal submitted by CCMS on 17 September 2019 for the closure of Seaview PS on 31 August 2021 or as close to that date thereafter.

This development proposal, to transform Seaview PS to controlled integrated status, will run parallel to CCMS’s development proposal.

The BoGs believe that the EA’s development proposal to close Carnalbanagh PS on 31 August 2021 or as close to that date thereafter will impact on this development proposal. Seaview PS enrolment figures evidence that eight Carnalbanagh pupils have already transferred to Seaview PS (Table 13 refers). The BoGs envisage that more Carnalbanagh PS pupils may transfer to Seaview PS if this development proposal to transform to integrated status is accepted.

The BoGs believe the absence of primary education provision in Glenarm village would be to the demise of a rural, vibrant community.

The positive impact of providing primary education through an integrated PS in the village of Glenarm is evidenced at sections 4.3.5 and 4.3.6 of this proposal.

4.3 What other options/size were explored and why was this the most appropriate area solution?

The various options explored at the consultation stage are listed below.

4.3.1 Maintain the status quo by keeping Seaview PS open

As a Catholic maintained PS maintaining the status quo is not an option both educationally and financially.

The BoGs believe that there is a need to ensure Seaview PS remains open, however, in a different capacity; as a controlled integrated PS.

The parental vote for transformation of 95.3% in June 2019 evidences the parental support, desire and demand for Seaview PS to transform to integrated status. The increase in enrolment from 42 pupils in 2018/19 to 70 pupils in 2019/20 is also testament to the demand for this option in the local area and village of Glenarm. These enrolment figures are set to increase to an estimated 80+ in 2020/21 and beyond this enrolment figure in the following years (Table 10a evidences).
4.3.2 Shared Options

The EA is statutory obliged to encourage, facilitate and promote shared education. Seaview PS has, over the past number of years, engaged in the Shared Education Signature Programme with Carnlough CIPS and Carnalbanagh PS. This partnership has been successful and is now in its fourth year and has longer connections in the previous Primary Integrating Enriching Education (PIEE) project which included St Mary’s PS, Cargan and Carnlough CIPS.

This shared education partnership has been valuable in a number of ways. We have had opportunities to promote respect for identity, diversity and community cohesion which we have then further embedded in Seaview PS. For a number of years our classes have had children from a variety of religious/non-religious backgrounds therefore this training and exploration of these statutory shared education themes, have directly improved the inclusive ethos of the school which is reflective of the wider Glenarm community.

The Shared Education partnership has also provided unique opportunities within the wider area of the Council such as, singing for the Larne Jingle Parade and the various Christmas celebration events. Other ways this has provided educational benefits to children include the annual residential trip/overnight stay which has enabled children from socially and economically deprived backgrounds (including those from rural backgrounds) to experience outdoor learning, adventure programmes and make meaningful and potentially lifelong friendships with children from each of our partner schools.

As schools we have come together on a number of occasions to create efficient and effective shared educational resources such as, Literacy overviews, joint policies (Play Based Learning, Outdoor Learning), observation templates and ‘World Around Us’ (WAU) topics. This subsequently provides good relationships at staff level which models what we expect from pupils: respect and inclusiveness of all.

The option of a “shared campus” model was explored during the round-table talks between Seaview PS, Carnalbanagh PS and Carnlough CIPS in Term 2, 2019. However, agreement on this could not be reached by the three schools.

Seaview BoGs believe that the evidence provided at section 2 of this report, supports Seaview PS site as the optimum site for the provision of integrated education in the Glenarm and Carnlough area.

4.3.3 Amalgamation

Seaview PS support the conclusions made in the ‘Community Conversation’ document of “the establishment of an integrated school in Glenarm”. (p. 40)
However, following intensive round-table talks (referred to above at section 4.3.2), an amalgamation solution was not agreed upon between the three schools.

4.3.4 Closure of Seaview PS

CCMS’ consultation document outline six sustainability criteria (as set out by the SSP) which it used to: assess the future sustainability of Seaview PS; explore various potential options; and put forward a proposal for the closure of Seaview PS.

The six sustainability criteria were: Quality of Education; Stable Enrolment Trends; Sound Financial Position; Strong Leadership and Management; and Strong Links with the Community. The possible options put forward were: Maintain the Status Quo; Shared Options; Federation and Amalgamation; and Discontinue.

CCMS has submitted a development proposal for the discontinuation of Seaview PS. CCMS stated that there was no evidence that any of the other options considered could provide sustainable provision for the Seaview PS. Therefore, CCMS have proposed that Seaview PS discontinues with effect from 31 August 201 or as soon as possible thereafter.

The closure of Seaview PS as a Catholic maintained PS is accepted by the BoGs of Seaview PS.

However, this DP allows for the progression of Seaview PS from a maintained Catholic school to controlled integrated status and contains substantial evidence that the Glenarm and wider community support and will attend an Integrated PS in the village of Glenarm.

4.3.5 Conclusion

Having given due consideration to the extensive feedback received and the consultations conducted, Seaview PS’s BoGs have agreed to proceed with a DP for the transformation of Seaview PS from Catholic maintained status to controlled integrated status with effect from 1 September 2021.

This proposal provides a local school in a rural area to accommodate children from Catholic, Protestant, other faiths and those who do not belong to a particular tradition, to enjoy, learn and grow in a safe and shared space.

Since the parental vote on 28 June 2019 which evidenced an overwhelming 95.3% support for Seaview PS to transform to controlled integrated status, Seaview PS has experienced unprecedented media coverage and interest. Seaview PS has featured on local and regional television, local and regional newspapers, and has received support on social media from politicians and political party leaders. Local promotion of the school also takes place within all sections of the local press, community newsletters and social media. Examples of the media coverage are:

- ‘UTV Live’ News, Principal interview and release of parental vote which was streamed live on air at 6pm on 28 June 2019;
- ‘The Irish News’ article, ‘Catholic School hopes to become the first to be Integrated’, dated 28 June 2019;

- www.belfastlive.co.uk article, ‘Seaview Primary votes in favour of being first Catholic school to become Integrated’ on 30 June 2019;

- ‘The Daily Mirror’ article, ‘Historic vote for Catholic school to be Integrated’ dated 1 July 2019;

- ‘The Larne Times’ article, ‘Glenarm School votes to become Integrated’ dated 4 July 2019;

- ‘Good Morning Ulster’ interview with Principal of Seaview PS on 28 August 2019;

- www.bbc.co.uk/ni ‘County Antrim Catholic school “boosted” by Integration plan’ on 28 August 2019;

- ‘The Nation’ magazine article ‘Northern Ireland’s Schools Still Aren’t Integrated’ published in USA on 9 September 2019;

- ‘The Independent’ article published in London on 8 October 2019; and

Support correspondences have been received from:

- MLA Gordon Lyons – Democratic Unionist Party;
- MLA Naomi Long – Alliance Party;
- Over 400 letters of support from the local and wider community (available on request);
- Glenarm Community Pre-school (Appendix G refers);
- Rainbow Private Day Nursery (Appendix H refers);
- Glenarm Castle and Antrim Estate;
- (Appendix I refers);
- (Appendix J refers); and
- Mr Michael Bennett, Principal Slemish College (Appendix K refers).
Seaview PS prospectus clearly reflects the integrated ethos of the school. Local political representatives have been invited to review and comment on the school prospectus, with many of their suggestions already taken on board. These include:

- Alderman Gerardin e Mulvenna - Alliance Party; and
- Councillor Andrew Clarke - Democratic Unionist Party.

Seaview BoGs believe that when families, schools, and community institutions collectively agree upon their goals and decide how to reach them, everyone benefits. Schools enjoy the informed support of families and community members; families experience many opportunities to contribute to their children's education; and communities look forward to a responsible and educated workforce. Benefits also accrue to the staff of schools and community agencies: who can observe boosts in morale, heightened engagement in their work, and a feeling that their work will net results.

Seaview PS is now in a prime position to deliver on the shared goal expressed as the "strongest preference for school sustainability in the Glenarm and Carnlough area". NICIE and the IEF have documented for some time how schools and communities working toward common goals can be beneficial. Communities can provide schools with a context and environment that complement and reinforce the values, culture, and learning that schools provide for their students.

Subsequently, schools, like Seaview PS, offer communities a focal point of educational services for children. Symbolically, schools are seen by many as the last enduring public institutions in many communities. Schools frequently provide employment for community residents and, like Seaview PS, offer many community services (as evidenced at section 3.6.1 of this report). Most importantly, schools like Seaview PS build well-educated citizens ready to take on responsibilities as contributing community members, respecting all generations through having contributed directly in this regard.

By continuing the great work that has already taken place at Seaview PS within its surrounding communities, we can continue to develop shared spaces in education and in society in general.

Based on all the previous work that has taken place in the village of Glenarm with a range of key and influential stakeholders, integrated education in Glenarm can and will be the centre piece for an exemplar model of how economic and social revitalisation can be brought about together, starting right from how we educate our children.

The Draft Programme for Government in Northern Ireland includes an outcome that is about creating a community which promotes mutual respect and understanding, is strengthened by its diversity and where cultural expression is celebrated and embraced.
In particular, it means making space for greater sharing between traditionally divided communities, such as Glenarm, through the provision of shared education at Seaview PS as a Controlled Integrated PS.

4.4 **What is the potential impact on other schools, what account has been taken of this?**

Since Seaview PS’s announcement to seek transformation to integrated status the enrolment figure has risen by approximately 60% from 42 pupils in June 2019 to 67 pupils in September 2019. These pupils came from a variety of schools as recorded in Table 13 below.

**Table 13: Origin of 60% increase in pupils at Seaview in September 2019**

</tr>
</tbody>
</table>

*In the academic year 2018/2019, approximately 40 pupils left the Glenarm area daily to attend Cairncastle PS. A bus is provided by the EA. This figure has now been significantly reduced.*

Seaview PS BoGs are aware of a number of new families from the Cairncastle and Glenarm area who intend to transfer/commence their children’s primary school education to Seaview PS upon the successful completion of this DP/CfC. These are evidenced within the Expression of Interest forms received by Seaview PS.

Seaview PS enrolment continues to increase with 70 pupils enrolled for January 2020, representing a 66.6% increase in enrolment from 2018/2019.

Seaview PS BoGs believe that these figures evidence and are a testament to the demands and wishes of the community of Glenarm and its surrounding areas to support a local school in the village of Glenarm. This demand is also evidenced in the University of Ulster’s ‘Community Conversation’ document.

4.5 **In the case of pre-school provision the EA’s Pre-school Education Group (PEG) are responsible for planning pre-school provision and overseeing the allocation of places to the non-statutory sector**
Glenarm Pre-School has very close links with Seaview PS. Pupils from the respective schools visit regularly and support each other with resources and by attending school events and fundraisers. A teaching member of Seaview PS staff is a committee member of Glenarm Pre-School. In 2020/21 we expect 12 pupils from Glenarm Pre-School to enrol in Seaview PS.

Glenarm Pre-School fully supports this DP (Appendix G refers). Another local preschool in Cairncastle, ‘Rainbow Private Day Nursery’, also fully supports Seaview PS’s DP to transform to integrated status (Appendix H refers).

5 RATIONALE FOR PROPOSAL

5.1 Explain the objectives of the proposal and the desired outcomes if approved – for example to reduce number of available places or to increase enrolment to meet demand. Detail how this aligns to Departmental policies and consideration given to Statutory Duties

Seaview PS proposes to transform from a Catholic maintained school to controlled integrated status. The DE’s ‘A Policy for Sustainable Schools’ states:

“…Sustainability is wider than issues of enrolment and budgets, since a schools long-term viability may also be significantly affected by other factors such as educational performance, quality of leadership and management, community support and the overall provision within the immediate area e.g. parish or village.”

Source: Schools for the Future: A Policy for Sustainable Schools 2009 (p.13)

The University of Ulster’s ‘Community Conversation’ document recommended a two-school model: one PS in Carnlough and another PS in Glenarm village. Analysis of the community’s thoughts and demands found that the Carnlough and Glenarm community supported this two-school model (see relevant finding and quote at section 4.1 of this report).

It is worth noting that whilst the ‘Community Conversation’ document found that the community supported an Integrated PS in Glenarm but on a site other than Seaview PS’s current site, current enrolment figures evidence that parents from Carnalbanagh, Carnlough CIPS and Cairncastle PS are prepared to enrol their children in a school on the current Seaview PS site. 20 pupils from these three schools transferred to Seaview PS in September 2019. A further 3 pupils have enrolled for January 2020 representing a total of 23 from the three schools. It is also important to note that in the current times of austerity in Northern Ireland, public services, such as education, and the associated availability of public funds, are under strain. Subsequently, Seaview PS provides a sustainable and structurally-viable building and site for the provision of integrated primary education in the Carnlough/Glenarm area.
The Providing Pathways - Strategic Area Plan for School Provision 2017-2020 (Area Plan): “aims to ensure all pupils have access to a broad and balanced curriculum that meets their needs in sustainable schools within a diverse system of education”. (p. 6)

This proposal addresses sustainability issues, as determined by the SSP at Seaview PS. The key sustainability criteria are addressed in section 3 of this report, and the following conclusions can be drawn from the assessments made.

**Quality educational experience**

The ‘Quality Educational Experience’ SSP criterion indicator states: “No more than two composite year groups in a single classroom at PS level”.

Table 6 of this report illustrates that from April 2020, no more than two composite year groups will be taught in a single classroom at Seaview PS.

**Stable enrolment trends**

Table 3 and Table 10a illustrates that Seaview PS’s enrolment has dramatically increased from 42 pupils in 2018/19 to 67 pupils in September 2019/20. Enrolment figures are expected to grow to an anticipated 80+ pupils in the academic year 2020/21.

**Sound financial position**

Seaview PS’s ‘Financial Plan’ (Appendix E refers) evidences the positive impact increased enrolment has and will have at Seaview PS. Seaview PS’s ‘Financial Plan’ also evidences that the school cumulative surplus/deficit is calculated within the EA’s 5% budget guideline over the next three years.

**Strong leadership and management by Boards of Governors and Principal**

As previously mentioned at section 3.4.2 of this report, the BoGs come from a wide background and offer a range of professional skills and aptitudes for the benefit of the school and the community.

**Accessibility**

Seaview PS is located in Glenarm village, on the main A2 Coast Road. It is therefore highly accessible to the local and wider community.

**Strong links with the community**

Please see section 3.6.1 of this report.

**5.2 Equality Duty**

Equality screening of this proposal has been carried out. Section 75 of the Northern Ireland Act 1998: A Guide for Public Authorities advises:

“The first duty is the Equality of Opportunity duty, which requires public authorities in carrying out their functions relating to Northern Ireland to have due regard to the need to promote equality of opportunity between the nine equality categories of persons of different religious belief, political opinion, racial group, age, marital status or sexual
The evidence received to date suggests that there are no major impacts on the protected groups within Section 75 Northern Ireland Act 1998. Seaview PS has fully considered its obligations under Section 75 of the Northern Ireland Act 1998 between persons within the nine equality categories mentioned above. In particular, the equality of persons of different religious beliefs and political opinion has been considered.

Recent communication with current pupil parents, potential pupil parents and the wider community took place during the months of May - July 2019 and October 2019 (and continue). These groups, along with potential pupils, were invited to ‘pop-up days’ at Seaview PS on 12 June 2019 and again on 4 December 2019. This was an opportunity for these groups to visit Seaview PS during the school day and observe the teaching practice and daily school life of pupils and staff. The school Principal also communicated Seaview’s ‘Transformation’ intentions and the impact this would have on the teaching practice within the school. These ‘pop-up days’ were arranged at different times of the day e.g. mid-morning, afternoon and evening, to accommodate all relevant stakeholders and all categories mentioned within section 75 of the Equality Act.

Seaview PS’s enrolment figures for September 2019 represents approximately a 49/35/16 Roman Catholic/Protestant/Other-background ratio of pupils. There is also approximately a 50/50 Protestant/Catholic staff ratio who identify with respective religious backgrounds and political opinions coalescing to promote a strong, shared and integrated community for the future.

This Case for Change document is an attempt to provide an alternative and sustainable option for the provision of integrated primary school education in the Glenarm/Carnlough area.

5.3 The United Nations Convention on the Rights of the Child (UNCRC)

Article 12(1) of the UNCRC states:

“Parties shall assure to the child who is capable of forming his or her views the right to express those views freely on all matters affecting the child, the views of the child given due weight in accordance with the age and maturity of the child”.

The Northern Ireland Executive’s draft ‘Children and Young People’s Strategy 2017-2027’ highlights that children and young people can often feel that their needs are not considered by those in authority. In full appreciation of this strategy, and the DE’s ‘Circular 2014/14’, Guidance on ‘Pupil Participation’, Seaview PS pupils were consulted (and continue to be consulted) throughout process of seeking transformation from Catholic Maintained to Controlled Integrated status. Pupils were encouraged to voice their opinions and participate in the decision-making process on whether they supported an integrated PS at Seaview PS through the ‘School Council’. Table 15 below records some of the unique thoughts and opinions of the pupils on what transforming to integrated status means to them.
Table 15: What transforming to integrated status means to Seaview PS pupils

Source: Seaview PS, Glenarm (June 2019)

Seaview PS Council fully evidences the respect staff and the BoGs have for the voice of its pupils. The School Council has been in operation since 2013. It meets on a termly basis with the Principal, some teaching and non-teaching staff to highlight pupil issues/concerns in a constructive and professional way. This has enhanced Seaview PS’s plan for transformation through the positive input of pupils’ unique and important perspectives, ideas and opinions.
5.4 Rural Needs Act (2016)

Section 1(1) of the Rural Needs Act (NI) 2016 (‘Rural Needs Act’) requires public authorities to have due regard to rural needs when developing, adopting, implementing or reviewing a policy, strategy or plan and when designing or delivering a public service.

The areas from which Seaview PS attract pupils are, according to the Inter-Departmental Urban-Rural Definition Group (‘A Guide to the Rural Needs Act (NI) 2016 for Public Authorities (Revised)’ April 2018, p. 16), defined as rural. Therefore this proposal takes “due regard” of this section of the Act.

This development proposal was presented, as part of the consultation with staff, the BoGs, parents/guardians, pupils of Seaview PS and the local community. This ensured information was received from the impacted stakeholders on all matters, including rural needs. It reviewed feedback from stakeholders, and gave them due regard, prior to the decision to proceed with this proposal. The commitment to consulting with all relevant stakeholders ensures the rural needs of all is embedded in and fundamental to this proposal.

Seaview BoGs believe that the proposal for the transformation of Seaview PS to integrated status would have a positive impact on the provision of primary education in the area. The reasons for this are detailed throughout this Case for Change report. The intention of this proposal is to advance the aspirations, aims and objectives of the SSP: “It is important that children in rural communities have access to a quality education in cost effective provision” (p. 27).

The presence of a PS in Glenarm village positively supports the Rural Needs Act and negates the demise of vibrant village life. The frequent use of Seaview PS hall by local people for a wide variety of activities, evidenced at section 3.6.1 of this report, has resulted in Seaview PS becoming the hub of the community where people from all and no religious backgrounds positively and respectfully enjoy and experience life together.

6 EDUCATIONAL IMPACT

6.1 What are the educational benefits of this proposal?

Seaview PS is located within the heart of the village of Glenarm which allows the pupils and teaching staff to use the locality as an outside classroom. With a beach and forest on its doorstep, teaching and learning are enhanced, particularly in World Around Us (WAU), Personal Development and Mutual Understanding (PDMU) and Thinking Skills and Personal Capabilities (TSPC) topics. Pupils have also taken part in, “The Daily Mile” initiative, walking from Seaview PS to the ‘Madman’s Window’. Close links with local industry and the community, as referred to at section 3.6.1 of this report, evidences staff’s use of local attractions, amenities, businesses and events which we believe enhances and showcases pupils’ learning. Support from staff and parents has enabled Seaview PS to initiate their own business of free range eggs production. Seaview PS pupils feed and care for the hens and sell eggs to the local community. This enhances pupils’ use of mathematics, financial capability in particular, on a practical level and in a real life situation.
on a daily basis. The most recent DE inspection, the quality of education provided by the school was deemed to be “very good” (as referred to at section 3.1.2 of this report).

The provision for integrated education would open the doors for more children, in the locality, to learn first-hand, both about and from their own neighbourhood and locality. The increase in enrolment from June 2019 – December 2019 evidences the support for the transformation of Seaview PS to integrated status. Many of the children from Glenarm village and its surrounding rural area, attend Glenarm Community Pre-school together. With the provision of primary integrated education in the village of Glenarm, the friendships formed, when children transfer to primary education, could be potentially maintained and nourished.

6.2 Provision of high quality education should be the desired outcome of all proposals - outline how this proposal aims to achieve this outcome

Seaview PS is growing in reputation, popularity and subsequently enrolment. We expect the increase in enrolment trend to continue.

In the current academic year 2019/20, Seaview PS has avoided having more than two composite year groups in a single class during the morning session (Table 5 evidences this).

Seaview PS’s current enrolment and the Expression of Interest Forms received to date evidence the expected enrolment of 80+ pupils in the academic year of 2021/22.

From April 2021, Seaview PS has budgeted for 4.5 teachers, ensuring no further use of composite classes. This plan complies with the ‘Quality of Educational Experience’ criterion as outlined in the SSP at sections:

1.2 No more than two composite year groups in a single classroom at primary school level; and
1.3 A minimum of four teachers at a primary school.

These criterion recognise both the needs of pupils and the demands on teachers.

An average enrolment of 15 pupils per year, would ensure that Seaview PS will have an enrolment figure of 105 pupils i.e. 7 year groups multiplied by 15 pupils. This figure is compliant with current Sustainable Schools’ Policy guidelines of 105 pupils for rural primary schools and would offer:

- The potential for pupils to be taught in their own year group with their peers;
- The opportunity for greater staff development, capacity building coupled with new leadership roles and the appointment of a vice principal; and
- A sustainable integrated provision for primary school pupils in the Glenarm/Carnlough area.
6.3 Outline how the proposal will benefit children and young people in the school(s) and in the area overall

This proposal will benefit Seaview PS pupils as it will add to the longer-term viability of primary school provision in Glenarm and its surrounding locality. Seaview PS’s main objective is to ensure that all children receive a first class education in fit-for-purpose facilities, regardless of religious and socio-economic backgrounds. This will be achieved by making best use of the resources available to develop and enhance the education of local young people. This proposal will progress the development of a network of strong viable schools to meet the educational needs of children and young people in their own locality.

6.4 Provide details of how the specific requirements of pupils with SEN will be catered for under the new arrangements

Seaview PS follows the EA’s ‘Good Practice Guidelines’ to ensure the Special Educational Needs and Disabilities (SEND) of pupils are met.

In addition to this, Seaview PS plan to liaise with the EA to ensure the following steps are completed:

- continued support for SEN(D) pupils following the transformation to controlled integrated status;
- assistance for new pupils in managing the change to a new setting within Seaview PS (as required);
- continued appropriate placement for pupils with a statement of special educational needs, and assistance for these pupils in managing the change to Seaview PS;
- early and confidential transfer of statements and individual education plans (IEPs) from other schools (pre-school and primary) to Seaview PS;
- consideration of the facilities and equipment required to support pupils with SEN(D) (as required);
- consideration of Learning Support Centre provision where appropriate; and
- consideration of transport arrangements, in accordance with transport regulations (as required).
7 IMPLEMENTATION PLAN (IF THE PROPOSAL IS APPROVED)

7.1 Outline all actions required to deliver the proposal if approved. Does the implementation date reflect this, is it deliverable? If phasing is being proposed explain why it is necessary?

Table 16: Timeline of Events

</tbody>
</table>
7.2 Depending on type of proposal, this could include arrangements for pupils transferring to other school(s), maintaining continuity for examination classes, applications for additional accommodation and timeframe for delivery which takes account of time needed to secure all the necessary approvals to allow accommodation to be provided.

It is particularly important to note that 95.3% of Seaview PS parents voted in favour of transformation and following the announcement, zero pupils transferred from Seaview PS in the current academic year. Accordingly, this evidence supports Seaview PS BoGs view that we do not anticipate any pupils will transfer from Seaview PS to another primary school following the transformation to integrated status.

There is currently sufficient space and facilities to accommodate 121 pupils comfortably at Seaview PS. The school is well equipped to facilitate the extra anticipated pupils.

7.3 Details of any arrangements for Shared Education Partnerships and how they would be impacted should be included in this section

Please see section 4.3.2. of this report.

7.4 Will there be composite classes or will they be removed. Will the school operate a double entry?

As a growing school we anticipate composite classes will initially be required. However, the anticipated class structures will reflect EA guidance of no more than 2 single year groups in a class.

Table 5 highlights the current daily teaching arrangement for composite classes.

Table 17 below demonstrates the anticipated class structures during the academic year 2020/2021:

* This is a conservative estimate.
7.5 How will the School/EA ensure that the education of the children is protected during / after the proposed change?

Seaview BoGs anticipate that transformation to integrated status will have a significant impact on the quality of education provided at Seaview PS. The quality of teaching, learning, leadership and management will improve with the additional staff and expertise this will bring. Expert input from NICIE in developing Seaview PS’s new ethos as a Controlled Integrated PS will have a positive impact on the pastoral care provision within the school.

Seaview PS pupils will continue to utilise the availability of local resources to enhance their learning and development. These include: the forest, beach, village, castle, harbour, sports facilities (MUGA), play park and the unique setting of the school with the backdrop of the Glens of Antrim; a designated area of outstanding natural beauty.

8 RESOURCE IMPLICATIONS

Detail finance/resource implications (both capital and recurrent) of the proposal and approximate costs where available

8.1 Is the proposal cost effective?

Finance – Budget position, impact on budget, cost of proposal

Transformation to a controlled integrated primary school would have a positive financial impact on Seaview PS.

As outlined in Table 18 below, pupil enrolment figures would increase as would the number of staff during the journey to and attainment of integrated status.

<td>-1.3%</td>
</tr>
</tbody>
</table>

*Note the figure for pupils in 2019/20 was 67 which increased to 70 after the 2019 Census. Also the figure for 2020/21 is expected to be 80+ pupils.
8.2 Staffing – Additional teaching staff required, cost / redeployment, redundancy cost

Teaching staff will increase from 3.5 teachers in the academic year of 2019/20 to 4.4 teachers in 2021/22. This is commensurate with the increase in pupil enrolment figures.

8.3 Transport – Any additional cost

There will be no additional cost to transport.

The parents of a number of pupils who leave the village on an EA provided bus have logged verbal interest in enrolling their children at Seaview PS if the school transforms to integrated status. There is the potential for these pupils to enrol at Seaview PS and join the other children who have chosen Seaview PS as their local, village, community school. As a result, the cost of transport may decrease.

Also to note there are a number of established bus routes already in place; for example from Feystown, Cairncastle, Dickeystown Road and Munie Road. Any potential pupils in these areas joining Seaview PS, will be able to avail of these bus services.

8.4 Accommodation – brief description of current accommodation/site, any capital proposals or minor works applications. Immediate day one minimum capital requirements should the DP be approved, site suitability to support changes, estimated cost and timescales for delivery of changes. Note: Approval of a DP does not automatically attract additional funding or accommodation and that these issues will be dealt with separately by the Department

Seaview PS is capable of accommodating the increasing and growing demand for additional pupils. The school’s current capacity is limited to 121 pupils. However, the Seaview PS site has an additional one quarter of an acre of Council-owned land directly adjacent to it. If required, this land could potentially be used to extend the school and be available for extra capital investment.

8.5 Other issues requiring resources

The journey to integrated status has received maximum grant funding from the IEF. Seaview BoGs expect this to continue as we complete and embed the process of transformation to integrated status. Additional funding maybe released by the EA/Education Department upon successful transformation to controlled integrated status.

As part of the three year transformation plan:
- Staff will continue to visit other integrated schools;
- The Transformation Action Group will review and update relevant resources to encapsulate our envisaged integration ethos;
• Seaview PS will celebrate diversity with pupils, staff, parents and the local and wider community;
• Upgrade classrooms to current modern standards;
• Employ additional teaching and non-teaching staff; and
• Continue to consult with pupils, staff, parents, other local schools and the local community to ensure the development of a shared and integrated school.

9 CONCLUSION
Seaview BoGs’ rationale for seeking approval of this DP/CfC with reference to the SSP’s six key sustainability criteria

Seaview BoGs believe that the evidence contained within this CfC document provides a clear rationale in seeking to transform to a Controlled Integrated PS on 1 September 2021.

• Seaview PS provides a ‘Very Good’ (ETINI 2014) ‘Quality Educational Experience’ with no more than 2 classes in a composite classroom planned for 2020; there are five classrooms with options to increase this number; teaching and learning at Seaview PS encompasses the local and wider community with committed staff who live and share Seaview PS’ vision ‘to inspire pupils to be the best that they can be’.

Seaview BoGs believe that Seaview PS will achieve the SSP criterion of ‘Quality Educational Experience’ post April 2020.

• Seaview PS enjoys ‘Stable Enrolment Trends’. Seaview PS is the fastest growing primary school in Northern Ireland. 42 pupils attended Seaview PS in 2018/19. 70 pupils were enrolled in Seaview PS in January 2019/20 representing an increase of 66.6% in enrolment. Seaview PS expects to enrol over 80 pupils in 2020/21, representing an increase of 90% in pupil enrolment figures when compared to the academic year of 2018/19.

Seaview BoGs believe that Seaview PS has achieved the SSP criterion of ‘Stable Enrolment Trends’.

• Seaview PS has a ‘Sound Financial Position’. Appendix E of this report illustrates that Seaview PS is on target to remain within the EA’s recommended 5% spend on school budgets. The figures in Seaview PS ‘Financial Plan’ are conservative as the predicted enrolment targets have increased since this financial plan was formulated. An increase in enrolment figures will enhance Seaview PS budget position more positively than this plan illustrates.

Seaview BoGs believe that Seaview PS has achieved the SSP criterion of a ‘Sound Financial Position’.
• ‘Strong Leadership and Management’ by the BoGs and Principal is evident at Seaview PS. Following an inspection in 2014, the inspection team reported: “the collegiate whole school approach to school improvement under the effective leadership of the principal, who is providing strategic direction for the school and the highly effective teamwork of the entire staff have brought about significant improvements in the overall quality of the provision and the standards which the children attain...”. (ETINI, 2014)

Seaview BoGs believe that Seaview PS has achieved the SSP criterion of ‘Strong Leadership and Management’.

• ‘Accessibility’ is not a concern for pupils attending Seaview PS. Seaview PS is located on the Coast Road and is therefore accessible for pupils living locally and in the surrounding areas.

Seaview BoGs believe that Seaview PS has achieved the SSP criterion of ‘Accessibility’.

• Seaview PS enjoy ‘Strong Links with the Community’ it serves. As evidenced at section 3.6.1 of this report, Seaview PS is the focal point for numerous local events throughout the year. Local clergy are regular visitors at Seaview PS. Pupils share in the national beauty of the area which is incorporated into the learning and teaching both inside and outside the classroom. Local businesses, the Council and voluntary organisations, (sporting and pastoral) visit Seaview PS regularly. These visits and experiences enhance the lives of pupils, parents and community members, ensuring that pupils are inspired to be… ‘the best they can be’.

Seaview BoGs believe that Seaview PS has achieved the SSP criterion of ‘Strong Links with the Community’.
Seaview PS pupils enjoy a rich, high-quality and happy educational experience at Seaview PS. Seaview PS’s BoGs sincerely hope that this will continue and that more children in our community can also enjoy this experience in the future.
Appendix A - Schedule of Accommodation

Seaview PS: 303-0899
School opened: 1965

Accommodation Breakdown:
Permanent Classrooms:
4@ 47sqm   1@ 59sqm

*Seaview BoGs have been overwhelmed by the support shown by Seaview staff, parents, pupils and the Glenarm community for the proposal to transform Seaview PS to integrated status.*
Appendix G - Glenarm Community Pre-School Letter of Support

Glenarm Community Pre School

Mark Street

Glenarm

BT44 0AL

20-11-19

Letter of support for the transformation of Seaview Primary School to Integrated status.

To whom it may concern.

We at Glenarm Community Pre School wish to express our complete support for the transformation process which Seaview primary school is undertaking.

We enjoy a positive relationship with Seaview and the children from both the School and our Pre School enjoy the benefits of these close links. We get together each term for a series of educational and fun activities and trips. The children engage fully with all the activities and develop a true understanding of each other which carries on with them into their primary school life. When the children don’t go to the same school these bonds can be broken and the benefits gained can be lost.

We believe that by keeping our local school and having an integrated ethos we are promoting integration not just in our schools but in our community. The loss of this school would be detrimental to the whole Glenarm Community.

We hope to be able to build and grow our links with Seaview Primary School in the future and see our children reap the positive impacts of integration that will inform how they view and interact with the world as they grow to become confident happy adults with strong community values and respect for everyone.

Yours

Staff and Committee of Glenarm Community Pre School.
Appendix H – Rainbow Nursery Ballygalley - Letter of Support

96 Brownlow Road
Lamse
Telephone: (02826) 383131

proprietor: [redacted]

4th December 2017

Dear Mr. Carr,

I am writing to offer our support in your bid to maintain St. Monica’s Primary school in Glenarm and your application for integrated status for your school. Over the years, we have had numerous children continue their education from our pre-school unit to your primary school.

Rainbow Nursery is situated on a farm in the rural village of Comacastle, so I understand the importance of maintaining a ‘social hub’ in the village of Glenarm. School drop offs and collection times are so important to people as it allows rural families the opportunity to socialise and become involved in the school activities which benefits not only the children but their families. Mental wellbeing is so important and in the rural communities.

Yours sincerely,

[Redacted]
I have noticed the community activities taking place in your school such as building projects, fitness and exercise classes which again are all very much needed in a rural environment.

I have liked your Facebook page and love the way your school has brought the classroom activities and learning outdoors, making use of the village forest and beach whether making learning more enjoyable and memorable for the children, also making use of the natural attractions and assets of Glanmore village.

Lastly you are providing employment in a small village.

I wish you continued success and if we can help in any way, please don't hesitate to contact me.

Yours Sincerely
Appendix I – Methodist Church – Carnlough

The Choir of the Broad Street Primary School, Glenarm

14th June 2019

Dear Sir,

I have been a lifelong supporter of Integrated Education, having encouraged the foundation of Lagan College in the seventies. I have been connected with it since its inception in 1981.

Consequently, I have supported integration wherever I have been. I believe that it is part of the solution to the problems here. Thus if there is a choice for any school or locality to move in that direction it is worth considering.

The Methodist Church has been behind integration in Northern Ireland as it would have the backing of the local Methodist Community.

Sincerely,

[Signature]
To whom it may concern,
I wish offer my whole-hearted support for the magnificent venture that
Seaview Primary School Glenarm has embarked on enabling them to become
an integrated primary school.

My entire ministry has been passionate in peace and bridge-building and
encouraging ecumenical outreach in the all churches and I see this very much
in evidence at Seaview Primary School.

I sincerely wish the principal, Board of Governors and staff every blessing as
they seek to fulfil this very important task for the area of Glenarm and indeed
for the future provision of education in Northern Ireland.

I would enthusiastically encourage parents in the catchment area to seriously
consider sending their primary-aged children to Seaview PS to support this
historic transformation to integrated status.

Your sincerely,
12 December 2019

To Whom It May Concern:

Slemish College is fully committed to growing an expansion of Integrated Schools across Northern Ireland.

The opportunity for Roman Catholic, Protestants and other religions to be education alongside each other is a very important part of moving Northern Ireland forward.

We therefore wholeheartedly support Glenarm Primary Schools application to become an Integrated School and believe this is a real opportunity for the community and all those involved in the school.

Yours faithfully
