**Rainbow Arc**

You will need a copy of the Rainbow Arc. If you do not have access to a printer, you can write the alphabet in the shape of a rainbow arc.

1. Start by rhyming the alphabet song as you point to each of the letters. Don’t worry if you can’t remember the tune. Make one up together and that will be much more fun!

2. Now cover one or two letters with your finger or a piece of paper and ask your child to tell you the missing letters.

3. Next, cover one letter. Point to a letter after the one you have covered and ask your child to tell you the letter before.

4. You can make the game even more difficult by trying to find the shape of the letter in the room! This is great fun and you can draw the letter on a piece of paper and compare the letter to the object. Have a great time finding the objects that match the letters. You will be surprised how many you can find!
