

## USING A WAIT CARD

The wait card can be used to signal a short amount of time for which your child must wait e.g. waiting for an activity to start or for their turn to begin.

Present the card along with a verbal direction such as “Wait”, or “You are waiting”.

When your child no longer needs to wait, remove the card and tell them “Good waiting. Now you can.....”.

If you do not have access to a wait symbol or printer then drawing your own wait symbol will also work.
